## LED Headlight and Bracket Kit

Kit Number: 1755200001

### Contents

- 1 Segway™ Mounting Bracket
- LED Headlight

### Tools Required

- None

### WARNING

Riding a Segway Human Transporter (HT) in the dark, even with a lighting system, is an inherently dangerous activity. In order to ride your Segway HT safely, you must be able to clearly see the area in front of you so that you can avoid obstacles, slippery surfaces, loose materials, signs, tree branches and other low overhead dangers, and other potentially hazardous conditions that could cause collisions or falls. Hazardous conditions that are visible in daylight will not be as visible after sunset, even with a headlight. If you cannot clearly see the area in front of you, you should not ride your Segway HT over it. If you ride after sunset, use a familiar, well-lighted route. Always wear a helmet.

Also, you must be clearly visible to motor vehicle drivers and others. When you ride after sunset, wear reflective clothing and display lights visible to the front, sides, and rear. Segway recommends that riders use both a headlight and a red indicator light that is visible from the rear, either mounted on the Segway HT or on the rider.

Some states and municipalities specify the lights that Segway HT riders must use when riding after sunset. Be sure to check local laws.

Because of the increased risk of injury, only experienced, adult riders should ride after sunset.

## > Instructions

### Step 1 - Select Bracket Location

Position the Bracket as high as possible on the control shaft and so that the headlight will not be obstructed by any other accessories. For the headlight included in this kit, the Bracket must be installed with the mount extending to the right.

### Step 2 - Attach Bracket

Wrap the Bracket strap around the control shaft and through the plastic ring. Pull the strap tight and secure using the hook and loop closure.

### Step 3 - Headlight Installation and Use

Mount the headlight to the Bracket mounting post according to the instructions provided by the headlight manufacturer (included with this kit). Operate the headlight in accordance with those instructions.

LIMITED WARRANTY The LED Headlight and Bracket Kit is an accessory covered by the Segway™ Human Transporter Limited Warranty (copy delivered with this kit).
